Subject: RE: load data for Mahhasset
Importance: High

Bruce,

Our continuing investigation into the erroneous LIPA billing for Manhasset reveals that the problem is two-fold: LIPA installed a new meter but applied the wrong constant; however, there is also a wiring issue which most likely began when the Ralph Lauren store moved in.

Please provide us with the name and contact information for your landlord at the Americana Mall. We want to investigate this further with them on behalf of Tiffany and Co.

Regards,
Chris

LIPA did not arrange nor inform us of any meter replacement for our location. There has been on going renovation/construction at adjacent store sites. Perhaps this has affected us.

No clue. They never told us. Maybe the store knows?

Bruce Edson....did LIPA arrange meter replacement with the store?

Also, do you know the reason why LIPA was changing the meter last September?

Regards,

Chris

Can you please tell us if there have been any changes to your Manhasset store (since the load data was calculated in 1997) that would have increased or decreased your demand for electricity?
